Families And Schools Together

What is F.A.S.T? Families and Schools Together

Engleburg Elementary School is excited to announce we will be hosting our Spring semester ***F.A.S.T. Program***. We will start Tuesday, April 1, 2025. The purpose of this program is to bridge the gap between the parents, school, and the community. This is a 8-week program that will be held once a week from 4:45 - 7:30 p.m. The entire family is encouraged to participate.

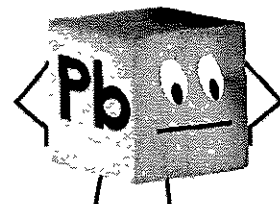

What does the program offer?

- **A family meal**
- **Fun activities for the ENTIRE family to enjoy**
- **Games**
- **Parent groups**
- **Playtime for the kids**
- **Promotes unity**
- **Resources for the parents**
- **A Raffle basket full of prizes for your family**
- **Graduation upon completion of the program**
- **Most importantly an opportunity for parent to enjoy family time with their entire family**

The Engleburg F.A.S.T. team is excited to participate in this awesome program that caters specifically to our families. We look forward to you joining us. If your have any questions or would like more information please feel free to contact Mrs. Collins, F.A.S.T. Coordinator at 414-616-5600.

What is Lead?

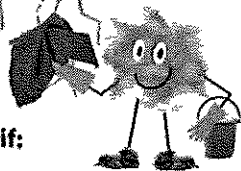

Lead is a toxic metal that is found in nature

Where is Lead Found?

What You Can Do:

PAINT

You may be at risk for lead in paint if:

- Live in a home built before 1978
- Have paint that is chipping, peeling, flaking and dusty around windows, floors and doors

- Always use soap and water when washing or cleaning:

- Hands
- Toys
- Bottles and Pacifiers
- Clothes
- Windows and floors

- Use duct tape to cover windows, walls and doors where lead paint is chipping, peeling, or flaking

SOIL

You may be at risk for lead in soil if:

- Live in a home built before 1978
- Have paint on the outside of the home, fence and garage that is chipping, peeling, flaking and dusty

- If you live in a home without grass, keep children out of bare soil. Cover bare soil with grass or mulch

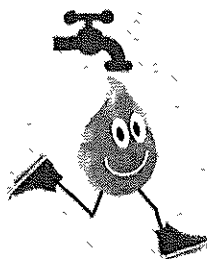

- Wash dirt and dust off of hands, body, toys, bottles and clothes with soap and water

- Always wash fruits and vegetables with cold water for 1 minute or until all dirt and dust is removed

WATER

You may be at risk for lead in water if:

- Live in a home built before 1962. These homes can have lead pipes that bring water to the home for use

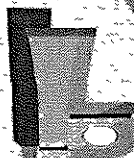

- If you do not have a filter, always run your cold tap water for 3 minutes between uses
- Filter your water and replace filters regularly. Use a water filter that is certified to remove lead (NSF/ANSI 53 filter)
- Women who may/can become pregnant and children under 6 years old should ALWAYS drink and cook with filtered or bottled water

PRODUCTS

You may be at risk for lead in products if:

- Regularly use products that are made outside of the United States including:
 - Medicinal remedies
 - Cookware (pots, pans)
 - Bullets/ammunition
 - Jewelry
 - Toys
 - Candies
 - Cosmetics
 - Spices

- Wash your child's hands and toys often
- Feed your child healthy snacks
- Avoid using imported products listed above unless they have been tested and do not have lead
